Price £5.00

A year in the Medicinal Garden
An illustrated garden diary on plants found in the College garden. Commentary on their uses past and present, and space for your notes throughout the year.

Price £6.00

The Pharmacopoea Londinensis of May 1618, in facsimile
Facsimile of the College’s copy of the May 1618 first edition of the first Pharmacopoeia ever published in Britain with a comprehensive epilogue and bibliography on its historic origins by Dr Henry Oakeley FRCP.

Price £25

Doctors in the Medicinal Garden
Explores the history, cultivation and uses of 60 plants found in the garden, which are named after doctors and apothecaries. A beautifully illustrated reference book, with over 150 images.

£13 paperback
£18 hardback

A rhyming alphabet of medicinal plants
Amusing ditties, charming 16–17th woodcuts from ancient herbals, and the actual uses of 40 medicinal plants.

‘J is for Juniper
It’s used to flavour gin
An aid to disinhibition
And facilitating sin’

Price £6

A garden of medicinal plants
The history, discovery and uses of 50 plants from the RCP’s Medicinal Garden, with a wealth of wonderful stories, information and photographs.

Price £12

The illustrated College herbal: plants from the Pharmacopoea Londinensis of 1618
Beautifully illustrated with 120 paintings and 77 late medieval woodcuts of medicinal plants used in the College’s first Pharmacopoeia of 1618, now grown at the RCP. Each with its contemporary use, and with a scholarly listing of 634 medicinal plants used and their modern names.

Price £25
