

# Sentinel Stroke National Audit Programme (SSNAP) results are tailored for a range of audiences.

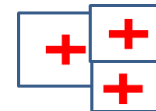

## Clinical Audit results are updated quarterly and annually and almost all reports are publically available:

Teams

Regions

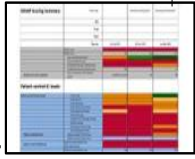

CCGs

National

### REPORTS

#### Summary Spreadsheet

Shows key indicator results and domain scores for a single team for current and previous quarters

#### Summary Spreadsheet

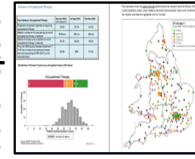

Shows key indicator results and domain scores for all hospitals within a region

#### CCG Dashboard

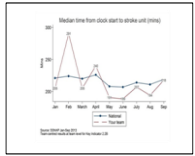

Shows CCG Outcomes Indicator Set results and a summary of relevant team results. Currently available only to CCGs

#### Public Report

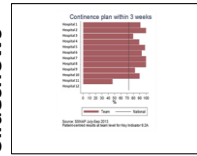

A national picture of stroke care along the whole pathway. Updated every quarter, it includes maps, graphs, clinical commentary and context

#### Slideshows

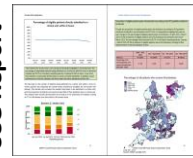

Visualisation of team results against national averages to allow comparison and monthly breakdown (not publically available)

#### Slideshows

Visualisation of team results within a region against national averages to allow comparison

#### CCG Report

Shows CCG population-based results for the CCG OIS and all 44 SSNAP KIs.

#### Annual Report

A national picture of stroke care over a year (April 2013 to March 2014)

#### Performance Tables

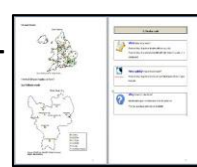

Shows the levels (A-E) achieved by every team, both overall and for each domain, compared to the previous quarter

#### Performance Tables

Shows the levels (A-E) achieved by every team in a region, both overall and for each domain, compared to the previous quarter

#### Easy Access Version Report

Developed with patient groups, Easy Access Version reports make key findings for each region easy to follow

### INTERACTIVE

#### Interactive Maps

Allows viewers to examine domain level and indicator scores dynamically, and for teams to compare with one or more other teams

#### Interactive Maps

Allows viewers to examine domain level and indicator scores dynamically, shows regional boundaries to allow comparisons

#### Interactive Maps

Allows viewers to examine domain level and indicator scores dynamically, show CCG boundaries to allow comparisons

#### Interactive Maps

Allows viewers to examine domain level and indicator scores dynamically and compare one or more teams nationally

### DATA

#### Quarterly Results Portfolio

Detailed spreadsheet prepared for each team, providing casemix, transfer tree, summary and results for all the measures collected

#### Quarterly Results Portfolio

Detailed spreadsheet prepared for each region, providing results for all the measures collected

#### Quarterly Results Portfolio

Detailed spreadsheet prepared for each CCG, providing results for all measures collected for all hospitals treating patients from the relevant CCG

#### Annual Portfolio

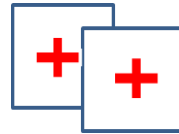

Detailed spreadsheet providing results for all the measures collected

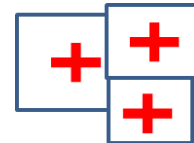

# Acute Organisational Audit results are updated every two years:

Site/Hospital

Regions

CCGs

National

## REPORTS

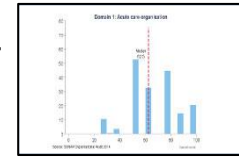

### Summary Spreadsheet

Shows site/hospital level results based on 6 domains and 46 key indicators of stroke service organisation, as well as an overall score

### Summary Spreadsheet

Regional level results based on 6 domains and 46 key indicators of stroke service organisation, as well as an overall score

### Public Report

A national picture of organisational audit results, including domains, changes over time, and country comparisons

### Slideshows

Provides visualisation of acute organisational audit results allowing comparison against national figures

### Performance Tables

Shows site/hospital level performance grouped by region

### Performance Tables

Shows site/hospital level performance overall, and for 6 domains of stroke service organisation

### Easy Access Version Report

Developed with patient groups, the Easy Access Version makes key findings for each region easy to follow

### Team Level Report

A site/hospital level report on the Acute Organisational Audit setting out standards for every parameter of stroke service organisation

## DATA

### Results Portfolio

Shows hospital level results for every data item benchmarked against the national average

All reports are available at [www.strokeaudit.org/results](http://www.strokeaudit.org/results)
