Sentinel Stroke National Audit Programme (SSNAP) results are tailored for a range of audiences. Clinical Audit results are updated quarterly and annually and almost all reports are publically available:

**Reports**

- **Summary Spreadsheet**
  - Shows key indicator results and domain scores for a single team for current and previous quarters
  - Visualisation of team results against national averages to allow comparison and monthly breakdown (not publically available)

- **Performance Tables**
  - Shows the levels (A-E) achieved by every team, both overall and for each domain, compared to the previous quarter

- **Slideshows**
  - Shows key indicator results and domain scores for all hospitals within a region

- **CCG Dashboard**
  - Shows CCG Outcomes Indicator Set results and a summary of relevant team results. Currently available only to CCGs
  - Shows CCG population-based results for the CCG OIS and all 44 SSNAP KIs.

- **Public Report**
  - A national picture of stroke care along the whole pathway. Updated every quarter, it includes maps, graphs, clinical commentary and context

- **Quarterly Results Portfolio**
  - A national picture of stroke care over a year (April 2013 to March 2014)

**Interactive**

- **Interactive Maps**
  - Allows viewers to examine domain level and indicator scores dynamically, and for teams to compare with one or more other teams

- **Easy Access Version Report**
  - Allows viewers to examine domain level and indicator scores dynamically, shows regional boundaries to allow comparisons

**Data**

- **Quarterly Results Portfolio**
  - Detailed spreadsheet prepared for each team, providing casemix, transfer tree, summary and results for all the measures collected

- **Annual Portfolio**
  - Detailed spreadsheet providing results for all the measures collected

**Summary**

The Sentinel Stroke National Audit Programme (SSNAP) provides a national picture of stroke care over a year (April 2013 to March 2014). It includes maps, graphs, clinical commentary and context. The data are updated quarterly and annually and almost all reports are publically available.
Acute Organisational Audit results are updated every two years:

**Site/Hospital**
- Shows site/hospital level results based on 6 domains and 46 key indicators of stroke service organisation, as well as an overall score.
- Provides visualisation of acute organisational audit results allowing comparison against national figures.

**Regions**
- Regional level results based on 6 domains and 46 key indicators of stroke service organisation, as well as an overall score.
- Shows site/hospital level performance grouped by region.

**CCGs**
- Shows site/hospital level performance overall, and for 6 domains of stroke service organisation.
- Developed with patient groups, the Easy Access Version makes key findings for each region easy to follow.

**National**
- A national picture of organisational audit results, including domains, changes over time, and country comparisons.

**Reports**
- **Summary Spreadsheet**
- **Slideshows**
- **Performance Tables**
- **Public Report**

**Data**
- **Results Portfolio**
