

Trainees Committee

Representatives for each deanery elected by and representing you the trainees, both within the Royal College of Physicians (RCP) on Council and in committees, and outside the RCP at the Academy of Medical Royal Colleges, the British Medical Association (BMA) and the Joint Royal Colleges of Physicians Training Board (JRCPTB), as well as lobbying parliament when the need arises.

We also represent you on a local level in each deanery at the local education and training board (LETB).

Please contact us with local and national issues you think we should be aware of or would like more information about.

Please apply when vacancies arise to join us on the committee and help shape medical education for the future.
