

## MTI application portal upgrade – important notice

27 February 2026

Dear colleagues,

We are writing to update you on the planned upgrade to the MTI application system.

The MTI application portal is currently scheduled to be temporarily unavailable from **Friday 10 April 2026** due to a system upgrade. All existing application data will be transferred to the new system.

*Please note that this date is subject to change. We will confirm any updates as soon as possible.*

The upgrade is expected to take **around 1–2 weeks**.

During this period (approximately **1-2 weeks**):

- No new MTI applications will be accepted
- Applicants will not be able to upload documents or make changes via the portal

From this date and until the new portal is available, documents should be sent by email to [mti@rcp.ac.uk](mailto:mti@rcp.ac.uk). Please note that documents submitted by email may take longer to process.

We apologise for any inconvenience during this period. Response times may be slower while the upgrade is taking place, and we appreciate your patience and understanding.

Once the new application portal is live, we will share guidance on how to access and use it.

Warm regards,

**MTI Team**  
**RCP Global**
